People Helping People

Human Services, Inc.

Community Action Promise

“Community Action changes people’s lives, embodies the spirit of hope, improves communities, and makes America a better place to live. We care about the entire community, and we are dedicated to helping people help themselves and each other.”

Human Services, Inc. began in 1965 as a Community Action Program providing grass roots programs to the lower income population. Later initiatives to assist created an opportunity to build community partnerships and collaborations for the purpose of reducing barriers that prevented persons from thriving in their communities. Through the years Human Services, Inc. has expanded it’s capacity, revised the mission and vision, and has evolved to the programs provided today. As the needs of the people and community continue to change and evolve so will Human Services, Inc. —an agency committed to “People Helping People”.

Human Services, Inc. is committed to serving those in need in our communities by offering a variety of programs and services throughout our five county service area; programs that are designed to assist persons and move them forward on the road to self sufficiency. Programs and services are administered to a population whose income ranges from below 100% to 200% of the Federal Poverty Guidelines.
